

27 October 1953

MEMORANDUM FOR: Colonel White

SUBJECT : Logistics Office Recommendations for Proposed  
Legislation for CIA

The attached, (Tab A), is the Logistics Office recommendations for legislation considered by that Office as helpful to operations. The number and type of suggested amendments, as well as their relation to the present public policy and the present thinking of the Congress, raises the question of policy timing, and etc. In view of this, it is my opinion that this Office should make no recommendations as to whether action to obtain new or additional legislation should or should not be taken. Instead it is suggested that the recommendations of the Logistics Office be reviewed with that Office for need and necessity, and that they be discussed in detail with the General Counsel and other interested activities of the Agency for desirability, Legislative Task Force proposals, timing, policy, and etc. It is further suggested that after this review and discussion, but prior to taking definite steps towards obtaining the legislation, this Office be advised on what matters you propose to press for.
